

F6	To define a text element.
F9	To define a line.
F10	To define a box.
F11	To define a bar code.
F13, then F6	To place a graphics element.
F13, then F9	To place a page segment.

The following display is an example of the page layout with four fixed data elements (three text elements, *T002, *T003, *T004, and one page segment, *S005).

When you press the F15 key to set mark off, the text can be fully displayed as follows:
