
Chapter 21. AFP Utilities for iSeries Commands

This chapter describes the commands for AFP Utilities for iSeries. The AFP Utilities for iSeries provide the following eight commands:

- STRAFPU
- STROVLU
- STRPFU
- PRTPFDDTA
- CVTPCDPAGS
- CVTPFMPAGS
- CVTOVLPM
- CVTPAGSPFM

You can enter the above commands on any display that contains the command line.

STRAFPU (Start AFP Utilities for iSeries) Command

The STRAFPU command displays the IBM Advanced Function Printing Utilities for iSeries menu that allows you to use the AFP Utilities functions.

There are no parameters for this command.

STROVLU (Start Overlay Utility) Command

STROVLU command allows you to perform an option of the Overlay Utility directly without viewing the Work with Source Overlays display.
